

## **Corporate Members & Sponsorship's Deck 2026**

# EXECUTIVE SUMMARY

***The future of nuclear is being shaped right now.  
The question is whether your company will simply be visible in it,  
or part of the forces driving it forward.***

## Why BNS?

Its mission : "to promote the advancement of science and engineering related to peaceful applications of nuclear energy" is reflected through its different initiatives, including the Young Generation, technical events, and professional networks, BNS now plays a key role in fostering collaboration, knowledge exchange, and innovation within the national nuclear ecosystem.

## Why becoming a Corporate Member or direct sponsor?

As a committed BNS sponsor, you already benefit from privileged access to a network that has become a strategic asset for talent, visibility, and innovation. Belgian companies are uniquely positioned to leverage this platform to strengthen their engagement with the full spectrum of the nuclear community, from experienced leaders to the next generation of professionals.

***Today, growth is no longer the challenge. Relevance and visibility are.  
Strengthening BNS through direct support is a concrete way to secure both.***
